

Manifesto

Approved by the General Assembly on 17th September of 2017

We, the citizens of the Earth Federal Republic, believe in the universal values of love, peace, equality, freedom and tolerance. These values constitute the basis of our nation, and we peacefully fight to preserve them.

We believe that the human goodness exists, and that every person in this world has the right to life as well as the responsibility to allow other people to fulfill their rights. Evilness is not innate but acquired, and we should do everything possible to stop any type of negative attitudes.

This is why we hereby condemn any past, present and future act of unjustified violence, including terrorism, genocides, attacks against civilians and those conflicts which are unnecessary for the prosperity of the whole humanity. Our hearts are with the victims of these acts, and also with their families and friends.

We invite you to join our cause to build a better world by spreading love, tolerance and respect all around you.
